Flare100™ Art Projector

Grids

Each projector includes 24 frames of grids and patterns that can be used alone, or projected over an image.

Select **GRID** on remote; press ◄ or ► to select grid. ▼ to **color** ◄ or ► to select grid color. **CLOSE.**

OR, in the main menu, go to **SETTINGS ► GRIDS** and select grid pattern and color. **EXIT.**

To use grids alone, exit to the "no signal" screen. Then select GRIDS on the remote. Choose a black or gray grid pattern. Push BLANK to see your work without the grid pattern.

Special Features Guide
Keystone / Edge Adjust

Impression1400™
Inspire800™
Flare100™ *Art Projectors*

Keystone Control
Flare100 & Inspire800 only

When set to Auto Keystone (**SETTINGS ▶ OPTION2**), vertical adjustment is automatic if the projector is tilted relative to vertical surface. Turn off to use manual keystone control.

Manual keystone: On remote adjust vertical keystone **KEY.S▲/ KEY.S ▼**

Flare100 and Inspire800 horizontal keystone is adjusted by moving the projector left or right until the image is squared.
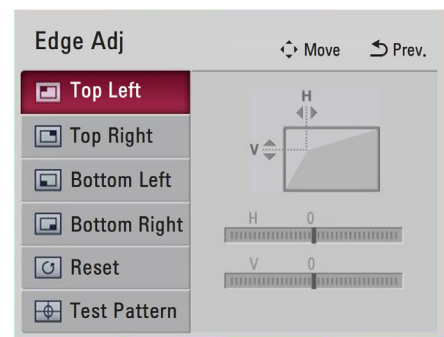

Edge Adjust—Keystone Skew Control
Impression1400 only

Edge Adjust lets you adjust each of the corners of the four corners of your image independently, for skew and angle control. Go to the **Edge Adj.** button on the remote OR, in the main menu, go to **SETTINGS ▶ OPTION2 ▶ Edge Adj.** Pull or push each corner to the position needed, then go to your image.

The Edge Adj. must be set before going to a USB image.

Special Features Guide

Grayscale / Blank / Rotate

Impression1400™
Inspire800™
Flare100™ *Art Projectors*

Grayscale

USB source: On remote, select **Q.MENU** ▶ **Set Video** using the arrow keys on the remote, scroll to Color; adjust color down to zero.

All other devices: Select **SETTINGS** ▶ **OPTION2** using the arrow keys on remote, scroll down to **Grayscale** and turn on or off.

Grayscale is useful for tonal evaluations, also edge and contrast detection of areas.

Blank

Press **BLANK** on remote to blank out image and see your work. **BLANK** again to restore.

Rotate—*USB source only*

Preview image. Push **OK.** On menu bar at bottom use arrow key to select ↻.

Push **OK** to rotate image 90°. **OK** again to rotate more. Press ↻ to exit.

> *TIP: Use custom picture settings EXPERT 1 and EXPERT 2 to preset grayscale or high contrast image settings so you can easily switch between image views while you work. See full Owner's Manual on the CD for detailed instructions.*

Special Features Guide
Flip/Reverse / Zoom

Impression1400™
Inspire800™
Flare100™ *Art Projectors*

Flip / Reverse

Turn off Auto Keystone (**SETTINGS ▶ OPTION2**). If using USB, push **EXIT** first.

Push **SETTINGS ▶ PJT Mode**.

Choose **Front** for normal. **Front Ceiling** for vertical flip, **Rear** for horizontal flip, and **Rear Ceiling** for both vertical & horizontal flip.

Zoom—*USB source only*

Set your zoom level and selection last in your image setup!

Select **OK** on remote to open bottom menu.

▼ to menu. ▶ to 🔍

⊞ on remote to set zoom amount.

◀ ▶ ▲ ▼ to position image.

The first zoom step may be large as the projector resizes the image first to its native resolution:

Flare100—854x480
Inspire800—1280x800
Impression1400—1920x1080
