

# PIGMENT MARKER

The next generation of marker pen, delivering an intense colour range, lightfast for up to 100 years\*.

**118** + **2**  
Colours Blenders

- Made with professional fine art pigments
- Lasts 25% longer than other markers
- 2 blenders – White and Colourless
- Maximum blending – just like paint

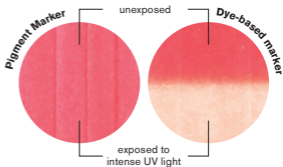

## White Blender

Create infinite shades and tones.  
Work on black and coloured paper.

## Lightfast

The only marker that is lightfast for up to 100 years\*.

## Slower Drying

Slower drying and more fluid to allow movement and blend-ability.

## Vibrancy

Pigment Markers keep their vibrancy as the pigment particles sit on the surface of the paper rather than bleeding through.

\*Up to 100 years in normal gallery conditions

## PIGMENT MARKER

Developed in tandem with special coated paper to optimise the blending experience.

---

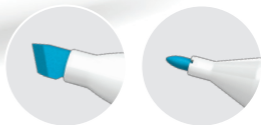

### Ergonomic design

Unique asymmetric design offers two grip positions so the user will not tire with prolonged use.

### Twin-tip nibs

Highest quality nibs that will not run out before the ink. Fine point for precision, broad chisel to cover and render.

### Pigment Marker Paper

Maximise colour laydown and blending with the purpose-designed Pigment Marker Pads.
